Your Building Leaks!

Our experts will educate you to better understand how to identify typical areas and causes of moisture intrusion, including windows, doors, masonry, EIFS/Stucco and other components of exterior walls. Learn how to be proactive so you can prevent water intrusion in your building façade by partnering with Knauss Property Services. We will share advice on creative ways you can budget for maintenance and repairs Q&A with specialty façade contractor, Ralph Knauss will answer questions specific to your building.

Presented by Ralph Knauss, Knauss Property Services

10:30 AM-11:15 AM

Making Above & Beyond the Standard in Emergency Communications

Technology is rapidly transforming communications, but not all advancements come without challengers-especially when transitioning from Plain Old Telephone Service (POTS) to emergency systems. As new players emerge in the telecom industry, businesses must navigate shifting regulations, operational concerns, and the risks associated with unreliable solutions. This session explores the evolving telecom landscape, examining emergency phone options and their impact on safety, compliance, and the key factors for mitigating risk and maximizing reliability in critical environments.

Presented by: Kings III Emergency Communications

11:30 AM – 12:15 PM

Preparing to Fail!

Avoid Emergencies by planning to combat challenges arising from system failures, utility disruptions and unplanned events. We will discuss such items as Power Supply, Temp Heat/AC, Modular Provisions, Fire Damage Recovery, Water/Sewage Emergencies, Infection Control.
